ABOUT US

ACOCHEM or Advanced Construction Chemicals, founded in 2024, is a Belgium based, independent, global platform, systemhouse and manufacturer of specialized construction chemicals.

ACOCHEM is the continuation and legacy of the company ADCOS NV, which was founded in 2004. We have a long track record in supplying state of the art construction chemicals for leak sealing and geotechnical injection resins, high performance coatings, and waterproofing materials.

It's our mission to provide innovative, high performance specialty chemicals delivering durable, cost-effective and sustainable solutions, enhancing the stability and longevity of your structures.

***“INJECTION FOR PROTECTION
ENGINEERING FOR PERFECTION”***

ACTIVITIES

Research and Development
Manufacturing
Sales and Marketing
Consultancy and Application
Specialized contracting

Industries:

Construction & Civil Engineering

- Infrastructure
- Tunnelling
- Metro, Rail & Utility
- Hydro-Electric PP & Dams
- Sewage Treatment Plants

Industrial sector

- Heavy industry
- Oil & gas, Petrochemicals

Mining

Applications:

Waterproofing & Leak sealing

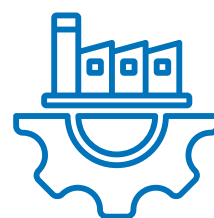

- Above and below grade

Ground Improvement & Soil Stabilization

High Performance Coatings

- Concrete protection
- Steel protection

Concrete Repair & Protection

PRODUCTS

We are active in +50 countries through a worldwide platform of valued added distributors, specialized contractors and consultants. We manufacture and market both private label and **ACOCHEM brands**.

Leak Sealing Injection & Ground Stabilization
PURINJECT, ACRYLINJECT, SILINJECT

Geotechnical Injection: Slablifting & Cavity Filling
GEORESIN

Waterproofing & High Performance Coatings
HYDROSTOP, BENTOSTOP, CRISTALPROOF, STM SEAL, UREASPRAY

Chemicals for tunneling and civil engineering
